

TOPAZ[®]

Desktop Video Magnifier

everything in sight™

TOPAZ at a Glance

- Clear, vivid images
- Ergonomic design with easy-to-use controls
- LED lights illuminate the work area – diffused to reduce glare
- Freeze Frame and Focus Lock
- Find and Position Locator features keep track of where you are reading or working
- 30 customizable high-contrast text color modes
- True color and optional enhanced full color
- Moveable reading table – slides for continuous reading
- Monitor raises, lowers, and tilts. It even swivels, so you can share your reading or work with family and friends
- A slotted holder on the reading table holds bottles and cans steady while you read their labels

If low vision keeps you from reading and enjoying your favorite hobbies and crafts, the TOPAZ desktop video magnifier can help. With magnification from 2.9x all the way up to 77x (with a 24-inch monitor), right away you'll be reading your private mail, clearly seeing prescription instructions, and looking up numbers in your phone directory. With a large reading table and 8.25 inches between the camera and the table, there's also plenty of room for hobbies and crafts.

The attractive TOPAZ fits in any environment – home, school, or office – and ships with your choice of monitor sizes and styles: a 17-inch monitor or a widescreen 20-inch, 22-inch, or 24-inch flat screen monitor – plus a camera only model.

TOPAZ[®] Desktop Video Magnifier

Built-in Features – Focus Lock and Freeze Frame

Focus Lock keeps the object or document you are magnifying crisp and clear when you're working with it and when you are writing under the camera. The camera maintains focus on your writing – not your hand holding the pen – keeping the writing details sharp.

The **Freeze Frame** feature is a great benefit for when you are referencing items from a list. It also comes in handy when you want to make a phone call and need your hands free while magnifying a phone number from a directory.

Freedom Scientific is the world's leading manufacturer of assistive technology products for those who are low vision or blind.
